

PRACHI SHRIRAM JOSHI

Amravati, Maharashtra

+91-7666753459 | prachi.joshi0629@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [LeetCode](#)

Career Objectives

Enthusiastic and hardworking individual with strong programming knowledge and real-world project experience. Looking for a challenging role where I can contribute effectively and grow professionally.

Education

- Pursuing B.Tech in IT Third year with current CGPA of 9.02 (upto 5th sem),
 - Government College of Engineering Amravati (September 2023 to Present)
- Class 12th - HSC Board, 84.83%
 - Shri Shivaji Science college Amravati (April 2022 to May 2023)
- Class 10th - SSC Board, 95.20%
 - Shri Ganeshdas Rathi Vidyalyaya Amravati (April 2020 to June 2021)

Technical Skills

- Languages:** C, C++, core Java, Python
- Technologies:** HTML, CSS, JavaScript, Node.js, Express.js, React.js
- Databases:** MySQL, PostgreSQL
- Tools and Platforms:** GitHub, Git, VS Code, Postman, Vercel, Supabase
- DevOps Technologies:** Jenkins, Docker, Kubernetes, Terraform, Ansible
- Operating Systems:** Windows, Linux
- Area of Interest:** Software Testing, Artificial Intelligence, Machine Learning, Data Science, Open-source contribution

Projects

Breast Cancer Risk Prediction (Ongoing Project) | Python, PyTorch, CNN, ResNet18, OpenCV, Flask, MongoDB |

- Working on multimodal AI framework for breast cancer detection using mammogram images and clinical data.
- Research focuses on integrating deep learning and explainable AI techniques for medical diagnosis.
- Implementing CNN and ResNet18 models for image feature extraction and classification.
- Exploring Grad-CAM for interpretable AI-based prediction visualization.

Usage Metering and Billing Engine for Object Storage | PERN, REST API, Axios, Recharts |

- Built a Zoho-inspired cloud storage and business management platform that allows users to securely upload, organize, restore, and manage files through bucket-based storage modules.
- Developed an invoice and billing management system with dynamic dashboards, analytics charts, file statistics, and responsive user interfaces for seamless business operations.
- Implemented JWT authentication, session handling, trash recovery, and role-based file operations.

File system Simulation in Linux (Ubuntu) | Shell scripting, CLI, Linux commands |

- An interactive file system simulation using Bash shell scripting which demonstrates understanding of operating system fundamentals and shell automation.
- Expanded file creation, deletion, movement, and directory management functionalities in this project.
- Planned a recycle bin mechanism to temporarily store deleted files before permanent removal.
- Applied Linux file handling commands and permission management concepts.

SaathIoT (Wearable fall detection and alert system for Elderly People)

- An IoT based fall detection system using ESP32, MPU6050 and GPS tracking for real-time accident detection.
- Designed an automated emergency alert pipeline using Node.js, Twilio, and Nodemailer to send instant SMS and emails to recipients whose data is collected in web form with live location and time/date of fall.
- Integrated hardware–cloud communication for real-time monitoring, improving response time and safety for critical situations.

Certifications and Achievements

- Full Stack web Development bootcamp from Udemy.
- DevOps Master-Class from Udemy
- Certification in programming languages C/C++, core Java from Nascom Computers Pvt. Limited Amravati.
- Certification in Basics of Python and Python GUI from Infosys Springboard.
- Completed virtual internships at Navodita Infotech and CodeClause in Web Development and Designing.
- Earned a badge of Postman API Student Expert.
- Earned Tree-Nation Tag with level-6 completion badges where more than six PR were merged in Hacktoberfest-2025.
- Attended hands on Workshop focusing on the Applications of IoT and Predictive Analytics.
- Research paper is accepted for presentation and publication on **Hierarchical Multimodal AI Framework for Breast Cancer Risk Prediction and Prognostic Analysis at ICT4SD 2026 conference.**

Positions of Responsibility

- Actively serving as a committee member in ITSA (Information Technology Students Association).
- Training and Placement cell coordinator from IT department.
- Member of ISTE chapter (Indian Society for Technical Education).
- Convenor of Reception and Valedictory committee in Zenith'2025.
- Registration Committee member in Alumni meet 2025
